Privacy

The purpose of this privacy statement is to explain to you EVFX policy with regards to the handling of personal data supplied by you to EVFX during the process of using this website.

Our data protection and privacy statement wording is required as a result of data protection laws arising pursuant to a European Union data protection directive. Businesses in European Union countries must comply with national laws enacted in light of their country's interpretation of the European Union data protection legislation. The legislation seeks to ensure that all personal information held by businesses and organisations is both accurate and suitably protected in order to ensure there is no misuse of personal data relating to an individual held by the business or organisation. EVFX intends to process your data by complying with relevant legislation.

information from EVFX or third parties which may be of interest to you and otherwise to enable us to perform any agreement with you, your employer or any other relevant third party.

You may be able to update some of the data we hold about you or third parties directly yourself. If you are acting as an intermediary or otherwise on behalf of a third party or supply us with information regarding a third party (such as your employer or a client company), you undertake that you are an authorised representative or agent of such third party and that you have obtained all necessary consents from such third party to the collection, processing, use and disclosure by us of their personal data.

The data may, for these purposes, be disclosed to certain types of staff within EVFX Limited's organisation (i.e., staff whose job it is to process your enquiries and orders or otherwise to administer the website, and those staff involved in the provision of EVFX services and products which may be of interest to you). Personal data may also be disclosed to a limited number of third parties, such as third-party marketing companies to send you information which may be of interest, data processors, suppliers or providers of goods or services.

We have adopted generally accepted standards of technology and operational security in order to protect the confidentiality and security of personal data collected via this website but the nature of the internet is of course such that the data may flow over networks without appropriate security measures and may be accessed and used by unauthorised persons.

Please note that this privacy statement only covers this website and does not regulate the privacy practices of other websites that may be accessible through or linked to this website.

We do not generally seek to collect data about your racial or ethnic origin, political opinions, religious or other similar beliefs, trade union membership, physical or mental health, sexual life, criminal record or alleged criminal activity through the website ("sensitive personal data"). We may collect some sensitive personal data incidentally. By providing us with unsolicited sensitive personal data you consent to our using those data for the above purposes.
