

RISK WARNING

Trading foreign exchange, commodities and contracts for difference ('CFDs') on margin carries a high level of risk and may not be suitable for all investors. Before deciding whether to trade foreign exchange and/ or derivative products, you should carefully consider your objectives, financial situation and your level of expertise and experience as well as your general risk appetite. It is important to note that you may sustain a loss of some, or all, of your deposited funds. You should therefore not speculate with capital that you cannot afford to lose.

You may also be liable for losses that exceed the amount of margin that you initially deposited. You should therefore always be aware of all the risks associated with foreign exchange trading and/ or derivative products in general. If you are in any doubt, we recommend you seek independent professional advice. Please also note that past returns are not indicative of future results.

Electronic and Voice Foreign Exchange Limited (EVFX) does not provide financial advice nor are we aware of your current financial situation and/ or objectives.
